

OICT Solutions

Partner Profile | African Digital Identity, Platform Readiness & Verification Partner

Advising, Building, Growing

Partner Profile | June 2026

OICT Solutions is a premier full-service management consultancy and technology solutions firm dedicated to driving institutional excellence. We help organizations navigate complexity, embrace innovation, and achieve sustainable growth through five specialized pillars: Digitalization, Research Advisory, Training, System Development, and Management Consultancy.

Led by executive expertise, OICT Solutions is headed by Abdisa Bancha Jara, an IT Senior Expert, CEO/Founder, Software Engineer, Consultant, Trainer, and Social Entrepreneur. He also serves as Coordinator for Google Crowdsourcing for Ethiopian and African languages, bringing together technology, language innovation, and institutional capacity building.

What We Do

Digitalization

Business process digitization, workflow automation, digital transformation strategy, and enterprise modernization.

Research Advisory

Market research, feasibility studies, institutional analysis, and data-driven strategic advice.

Training

ICT training, staff capacity building, executive upskilling, and tailored corporate learning.

System Development

Web applications, desktop systems, mobile solutions, APIs, portals, and enterprise software.

Management Consultancy

Strategic planning, organizational development, performance improvement, and change management.

Partnership Services

Strategic partnership development, digital identity support, platform readiness, and institutional collaboration.

Who We Partner With

- Banks and financial institutions
- Fintechs and digital service providers
- Government bodies and public institutions
- NGOs and development organizations
- Universities and research institutions
- Corporate brands and SMEs
- Technology companies and innovation teams

Partnership Areas

- Digital identity and official presence setup
- Platform readiness and verification support
- Website credibility and trust-building
- Social media governance and brand consistency
- Organizational digitization and workflow improvement
- Training and capacity building
- Technology and innovation partnerships
- Regional and cross-border collaboration

Featured Institutional Work

Siinqee Bank S.C.

Siinqee Bank S.C. is one of OICT Solutions' flagship institutional engagements. Our work supported digital identity readiness, website alignment, official social channel governance, and verification readiness across major digital platforms. This case demonstrates our ability to help regulated institutions build trust, strengthen credibility, and maintain consistent official presence.

Why Partner With OICT Solutions?

- African market understanding and institutional context
- Digital identity and platform readiness expertise
- Strategic advisory combined with technical execution
- Clear communication, structured delivery, and measurable outcomes
- Long-term partnership mindset
